

Installation of Draftsight

Installed version : 2018SP1 64 bits

- # Connect with the profile of the user who wants to use Draftsight
- # Start installing Draftsight using the "Run As Admin" function
- # Select, free license
- # Click on "Done" and then on "No thanks"
- # Go to the folder
- # Run the Draftsight.exe program as an administrator
- # Click on "Activate"
- # Enter twice the email of the user who wants to use Draftsight. The other 3 fields to fill in are of no importance.
- # Open the Draftsight User Mail and wait for the email to be received for activation
- # Click on the link

If everything goes as planned, the app will open a web page to tell you that everything is over, but kidney will not work. Whenever you want to use Draftsight, the application opens and closes instantly

Procedure to correct the problem

- # Start the Regedit program as administrator
- # Go to HKLM\SOFTWARE\MICROSOFT\WINDOWS NT\Current Version\ProfileList
- # Identify the ID of the administrator used to install Draftsight and the ID of the user who wants to use Draftsight.

Example

Admin user : S-1-5-21-4270634972-2877105811-2816753613-1635
Draftsight user : S-1-5-21-4270634972-2877105811-2816753613-18733

- # Go to HKEY_USERS\< ID of the admin >\SOFTWARE
- # Select SWActivation puis clic droit> then right click, export
- # Save the file as c: \ temp
- # Edit the file with NOTEPAD and replace

S-1-5-21-4270634972-2877105811-2816753613-1635

By

S-1-5-21-4270634972-2877105811-2816753613-18733
